Introduction

An average of 501 Utahns die from suicide and 3,968 Utahns attempt suicide each year. Overall, more Utahns are hospitalized or treated in an emergency department (ED) for suicide attempts than are fatally injured (Figure 1).

*Suicide attempts include persons who are hospitalized or treated in an emergency department for self-inflicted injuries.

One Utahn dies as a result of suicide every day.

Eleven Utahns are treated for suicide attempts every day.

All suicide attempts should be taken seriously. Those who survive suicide attempts are often seriously injured and many have depression and other mental health problems.

Utah Trends

The 2012 Utah suicide rate was 23.3 per 100,000 population ages 10+. Suicide was the 6th-leading cause of death in Utah.4

“We all play a role in preventing suicide. We are significantly increasing efforts at both the state and local levels to prevent suicide. To do so we must come together as families and communities to find the answers.”

Former Utah Lt. Governor Greg Bell
Utah and U.S.

Utah’s suicide rate has been consistently higher than the national rate for more than a decade (Figure 2). Utah had the 7th highest suicide rate in the U.S. in 2010.

Age and Sex

Overall, Utah males (34.0 per 100,000 population) had a significantly higher suicide rate compared to Utah females (9.5 per 100,000 population). However, Utah females had significantly higher ED visit and hospitalization rates for suicide attempts compared to Utah males (Figure 3).

Utah males have significantly higher rates of suicide compared to Utah females in every age group (Figure 4).

Location of Injury

The majority of Utah suicides occurred at a residence (72.6%), followed by inside a motor vehicle (9.3%), and natural areas, such as fields or mountains (5.4%).

The following small areas had significantly higher rates of suicide, hospitalization, and ED visits for suicide attempts than the state rate:

Highest Suicide Rates

- Grand/San Juan Counties, Southwest LHD (Other), South Salt Lake, Murray, Juab/Millard/Sanpete Counties, and Other Washington County (Other)

* Insufficient number of cases to meet the UDOH standard for data reliability; interpret with caution.
Suicide in Utah, 2012

Highest Hospitalization Rates for Suicide Attempts

- Magna, Midvale, Riverdale, Downtown Ogden, Ben Lomond, West Jordan Northeast, St. George, West Jordan Southeast, West Valley West, Tooele County, Taylorsville, Glendale, and Rose Park

Highest ED Visit Rates for Suicide Attempts

- Brigham City, Midvale, Magna, Murray, Taylorsville, West Jordan Northeast, West Valley East, Sandy Center, South Salt Lake, Carbon/Emery Counties, West Valley West, West Jordan Southeast, Kearns, Other Box Elder County, Glendale, North Orem, and Holladay

Method of Injury

Use of a firearm was the most common method of suicide death for Utahns followed by suffocation and then poisoning (Figure 5).  

Risk Factors

Risk factors for suicide may include:

- Previous suicide attempt(s)
- History of depression or mental illness
- Alcohol or drug abuse
- Easy access to lethal methods (such as pills or firearms)
- Stressful life event or loss
- Family history of suicide or violence
- Relational, social, work, or financial loss

Suicide Death Circumstances

Overall, Utah females who died by suicide had significantly higher rates of having a diagnosed mental illness and receiving current treatment compared to Utah males.

Utah females had significantly higher rates of other relationship problems while Utah males had significantly higher rates of job problems when compared to each other (Figure 6).

Cost

The average total charges per year for ED visits and hospitalizations for suicide attempts was $29.3 million for Utahns.

Prevention Tips

- Call for help. Help is available 24 hours a day 7 days a week. If you live in Utah, call the UNI Crisisline and Mobile Crisis Outreach Team at 801-587-3000 or call the National Suicide Prevention LifeLine at 1-800-273-TALK.

- Take any threat of suicide seriously.
- Do not leave the person alone.
- Listen to and don’t judge anyone you think may be in trouble.
- Take action. Remove guns or medications to prevent a suicide attempt.
